

2.9 POVERTY-LEVEL PREGNANT WOMEN**A. CHANGE IN THE AG**

The newborn is added to his mother's case with his own MN AG.

The pregnant woman is removed from the AG at the end of 60-day postpartum period. See Chapter 16.

B. CHANGE IN INCOME AND/OR DEDUCTIONS

Once the pregnancy is medically verified and eligibility is established, the Poverty-Level pregnant woman's Medicaid eligibility continues, without regard to any change in family income, through the end of the month in which the 60 day post-partum period ends. See Chapter 16.

Special procedures must be followed when the pregnant woman's child(ren) has income of his own. These procedures must be followed to avoid illegally deeming the income of a child. See Chapter 10.
