The purpose of the TBI Waiver Quality Improvement Advisory (QAI) Council is to provide guidance and feedback to Waiver staff in the development of an ongoing quality assurance and improvement system for the TBI Waiver Program.

To this end, the Council's charge is to work with staff to develop and strengthen the Waiver's ability to:

- Collect data and assess participant experiences in order to assess the ongoing implementation of the program, identifying strengths and opportunities for quality improvement,
- Act in a timely manner to remedy specific problems or concerns as they arise,
- Use data and quality information to engage in actions that lead to continuous improvement in the Waiver program.
