

# CENTER FOR THREAT PREPAREDNESS WEBINAR

## Radiation Emergencies: Expectations for Public Health

February 18, 2015  
12:00 to 1:00 pm EST

Join our webinar to learn about radiation threats and the role of public health in West Virginia. The webinar will be presented by Dr. Armin Ansari, PhD, CHP, Health Physicist with the Radiation Studies Branch at the Centers for Disease Control and Prevention.

### Learning Objectives:

- Describe the basics of radiation
- Describe radiation emergencies and potential public health threats
- Discuss the role of public health in radiation emergencies
- Identify resources for radiation preparedness and response
