Feedback / Ideas

The threat of decreased funding is made each year and the statement of work exceeds what is possible to do with funding received. Yearly changes in personnel on the State level makes continuity more difficult and knowledge questionable. Every health department, no matter what the size, has the same deliverables. It would help immensely if priority/ranking was established for expectations. WVREDI is difficult to work with and volunteers are not happy with the quality of the calls they receive. It can be hard to understand what the automated voice is saying. Work with vendor to improve quality.
