The **Vision** of the Bureau for Public Health is to have healthy West Virginians in healthy communities.

The **Mission** is to help shape the environments where West Virginians can be safe and healthy in their communities.

Ensuring “consistency” in services to residents across all 55 counties.

A community is where you live, work, walk, pray, play, eat and sleep.
Bureau for Public Health Workforce

State Health Officer and Commissioner

Administration
- Accountants
- Buyers
- Grants Specialists
- Monitors and Auditors
- Human Resources Managers
- Public Health Attorneys

Health Protection
- Forensic Pathologists
- Engineers
- Nurses

Serving West Virginia Residents

Providing Comprehensive Laboratory Services

Operates under national public health laboratory standards to perform clinical diagnostic and environmental testing, as well as chemical and biological agent testing.

Select 2014 Data

- 82,679 total clinical specimens received, 1,530,433 clinical tests completed.
- 1,428 Rabies and West Nile specimens, 1,371 tests completed.
- 262 Bioterrorism Samples received.
- 1,921 Drinking Water samples received, 2021 tests completed.
- 13,285 Environmental Micro samples received, 9902 tests completed.
- 2,275 Milk Samples Received, 7,818 tests completed.
Protection From Adverse Environmental Factors

Current Activities
- Issues 167 bottled water distributions permits to facilities in 13 countries and 30 states annually.
- Over $75 Million to drinking water projects across the state affecting 187,534 people from 2011 through 2014.
- Inspect and regulate 90 Grade “A” dairy farms.
- Permits 150 large quantity infectious medical waste generators.
- Inspects and regulates 110 food processing plants.
- Trains all registered public health sanitarians.
Chief Medical Examiner

Conducts comprehensive forensic death investigation utilizing forensic pathology, toxicology and death investigation protocols.
Supporting Maternal, Child and Family Health

Creates comprehensive systems of care for women, infants, children and adolescents focused on the full spectrum of public health services from prevention to clinical treatment programs.

Current Trends

• The Family Planning and Breast and Cervical Cancer Screening Programs (BCCSP) estimate a 57% reduction in utilization of cervical cancer screening services from 2013.

• BCCSP is estimated to screen 4,700 women this year, compared to 14,000 women two years ago. This is an estimated 67% reduction.

• Home Visitation program funding has increased dramatically from $1 Million in 2010 to $17 Million in 2015.
Serving West Virginia Residents

Increasing Access to Health Care in Rural Communities

Operates under national guidelines and best practice programs to recruit and retain health care professionals in rural communities.

Select 2014 Data

- Conducts Health Professional Shortage Area (HPSA) designation assessments.
- The J-1 Visa Waiver Program placed 32 health care providers in 2014.
- State Loan Repayment Programs placed 50 health care providers in underserved or rural areas in 2014.
Comprehensive Statewide Epidemiological Services

Oversees statewide surveillance, investigation, and tracking of: required reportable conditions; communicable diseases; chronic diseases; maternal and child health indicators; and environmental related illnesses.

Current Activities
- BPH employs a wide range of specialized epidemiologists, including infectious disease, environmental, maternal and child health, disaster and chronic disease epidemiologists.
- Maintains the statewide WV Immunization Information System.
- Investigate an average of 134 outbreaks per year since 2009.
Emergency Medical Services

Increase the quality of emergency care for West Virginians by overseeing emergency medical services and systems.

Current Activities

- State authority for Trauma Center designation.
- Certifies over 8,000 EMS personnel such as paramedics and EMTs.
- Inspects, licenses and regulates EMS agencies.
- Oversees interoperable radio communications network infrastructure.
Reduce The Incidence of Preventable Disease and Death

Current Trends and Activities
- Policy, environment and systems change.
- Evidence based interventions.
- Community coordinated care systems.
- Clinical and public health linkages.
- Social and Economic determinants of health.
Public Health is evolving - Public Health System must adapt.

- Health In All Policies approach.
- Maximize effective use of decreasing public health funds.
- Consistency in administration of public health services and programs.
- Focus on performance management, health outcomes, and accountability.

Local Health Projected Expenditures: Basic Public Health Services

- Community Health Promotion: 5%
- Environmental Health: 23%
- Epidemiology: 1%
- HIV/AIDS: 1%
- Immunizations: 13%
- Office Management/Administration: 1%
- Sexually Transmitted Diseases: 1%
- Tuberculosis Services: 49%

Summary of Local Health Departments Operating with a Deficit

Less than 3 months cash/cash equivalents reflected in most recent audit for 6 agencies.

Audits for 2011 – 2013 reflect an annual deficit for 8 agencies.

% of Projected Personnel Expenditures to Projected Total Expenditures:
- Range: 52% - 89%
- Mean: 74.3%

Data Source: Published Audits on File [http://www.wvsao.gov/CID/pdfAuditWebApp/]
The degree to which the OPEB liability contributes to the agency’s annual financial deficit appears to be minimal.
Summary of Local Health Department Personnel Expenditures

Percent of Personnel Expenditures to Total Expenditures

Data Source: Personal services expenses as reported in the most recent published audit. Personal services were not able to be determined for LHD 6, 16 and 18.
The West Virginia Public Health System

**Functions:**
- Legal Authority
- Policy Development
- Partner Engagement
- Continuous Improvement
- Oversight of Operations

**Functions:**
- Develop and implement local health services
- Assure compliance with state and federal laws
- Interpret program needs and objectives
- Responsible for efficient and effective utilization of fiscal and personnel resources
- Reports to local board

**Intent of the System:**
To assure public health services are provided to all citizens. The authority of the Bureau for Public Health is to monitor the administration, operation and coordination of local boards of health and local health officers.

**Functions:**
- To prevent and control epidemics (infectious diseases)
- Promote a safe and health environment (environmental health)
- Promote health lifestyles (community health promotion)
Powers and Duties of Public Health Agencies

- Public Health Governance
- State Public Health System
Powers and Duties of Public Health Agencies

• Local Boards of Health
  • Authority to Create, Establish and Maintain
  • Powers and Duties of Local Boards of Health
  • Financial Responsibilities
Powers and Duties of Public Health Agencies

• **State of West Virginia**
  • Powers and Duties of the Commissioner
