Report name, address, telephone number, date of birth, sex and the physician's name, office address, office phone and fax numbers, using the appropriate disease reporting form in the West Virginia Reportable Disease Protocol Manual:

<http://www.dide.wv.gov>

West Virginia Reportable Infectious Diseases Health Care Providers and Facilities (WV Code 16-3-1; 64CSR7)

Reporting of the following diseases is required by law as follows:

Reportable Condition	How to Report
Administration of Immunizations	Administration of immunizations to children age 0 through 18 years are reportable to the WV Statewide Immunization Information System (WVSIIS) electronically or by fax to 304-558-1899. Further information on immunization reporting can be obtained by calling WVSIIS at 877-408-8930.
Autism Spectrum Disorder	The Autism Spectrum Disorder Registry is maintained by Marshall University Autism Training Center. Any questions regarding reporting Autism Spectrum Disorders or acquiring reporting forms should be directed to the WV Autism Registry at 800-344-5115 or 304-696-2332.
Birth Defects	Birth defects are reported through hospital medical records departments. Report forms and information on reporting of birth defects can be obtained by calling the Division of Research, Evaluation and Planning, Office of Maternal, Child and Family Health at 304-558-5388.
Cancer and Non-Malignant Intracranial and CNS Tumors	Cancers and non-malignant intracranial and CNS tumors diagnosed and/or treated by any West Virginia health care professional are to be reported to the West Virginia Cancer Registry within 6 months of diagnosis in a format compatible with the requirements of the National Program of Cancer Registries. Questions about reporting should be directed to the WV Cancer Registry at 800-423-1271.
Hemophilia	Diagnoses can be recorded on the West Virginia Bureau for Public Health Confidential Reportable Disease Case Report and submitted to the WV State Hemophilia Program, Division of Surveillance and Disease Control. Questions about reporting congenital bleeding disorders should be directed to the State Program at 304-558-2188 or 800-642-3634.
Lead	Reported information should include the patient's name, address, (including county, date of birth, sex and lead levels as well as the reporting provider's name and address, and any other information required by the director relevant to the purpose of this rule. Questions on lead reporting should be directed to the Office of Maternal, Child and Family Health, Division of Research, Evaluation and Planning at 304-558-5388.
Traumatic Brain Injury	Patients with a Glasgow Coma Score of 13 or below who are either admitted for > 24 hours or are transferred to an outlying facility are reportable by trauma registrars to the Office of Emergency Medical Services Trauma Registry in conjunction with the Traumatic Brain Injury Program at the Center for Excellence in Disabilities (CED), a part of West Virginia University, Robert C. Byrd Health Sciences Center. For statistical and planning purposes, reporting of patients with concussion, contusions, and minor head trauma who are treated and released from provider offices, urgent care centers, and emergency departments is requested, through not required. These can be reported via a simple form provided by the Office of Emergency Services and CED Program. This form and other information on reporting Traumatic Brain Injury can be obtained by calling CED at 304-293-4692, ext. 1113; website: www.cedwvu.org .
