

## WVEDSS - Data dictionary

Field Name	Description of variables	Value field	Format	User (U)/system (S) defined*
Age Category Code	Code representing the category to which a person belongs to	blank		S
Age Reported	Age of the patient	number	number without decimals	S
Age Reported Time	Age of the person at the time of interview	number	number without decimals	U
Age Reported Unit Code	Age unit - year (Y), months (M), weeks (W), days (D), hours (H)	text	Y, M, D	S
Birth Gender Code	Gender (sex) at the time of birth - Male (M), Female (F)	text	F, M	U
Birth Order Number	The order in which the person was born	blank		U
Birth Time	Date and time of person's birth	date	mm/dd/yyyy; 00:00	U
Case Status	Current status of the case - confirmed (C), Probable (P), not a case (N)	text	C, N, P	U
Case Type Code	Indicates whether the case report is an individual case (I) or a summary report (S)	text	I, S	S
City	Name of the city	text	text	U
Concatenated Race Category Code	Code for races	4 digits number with hyphon and text	2106-3= White; U= Unknown; 2054-5=Black or African	S
Concatenated Race Description	Description of race	text	Black or African American	U
Condition	Name of the disease	text	Hepatitis, Lyme, Legienella etc	U
Condition Code	Indicates the kind of public health case (condition)	number (6 digits)	10106, 11020, 10105, 11723 etc	S
Condition Description	Description of the condition code	text	Hepatitis C Virus Infection, chronic or resolved, invasive disease (IPD) etc.	U

## WVEDSS - Data dictionary

Field Name	Description of variables	Value field	Format	User (U)/system (S) defined*
Confirmation Method Code	Provides information on how the case classification status was derived. Includes laboratory criteria (alone)met, epidemiologist-or other public health worker-assigned, epidemiologically linked via investigation, and physician reported.	text	LR= laborotary report; CI= clinical information	S
<b>Confirmation Method Time</b>	Date of confirmation method	date	mm/dd/yyyy; 00:00	U
Country Code	Code for the county	number (3 digits)	840	S
County	Name of the County	text	Mercer County, Morgan County	U
County Code	County code for a postal location (zip code)	number (5 digits)	54055, 54061, 54039 etc.	U
Current Sex Code	Person's current sex -male (M), female (F)	text	F, M	U
Deceased Indicator Code	Indicates if the subject is dead - yes (Y), no (N), unknown (UNK)	text	Y, N, UNK	U
Deceased Time	Date and time of death	date	mm/dd/yyyy 00:00	U
Detection Method	Method by which the case was identified	text	Patient self referral, Provider reported, other	U
Detection Method Code	Code for the method by which the case was identified - Patient self referral (S), Provider Reported (PR), Other (OTH)	text	S, PR, OTH	S
<b>Diagnosis Date</b>	Date of first positive result i.e.Date of diagnosis of condition being reported to public health system.	date	mm/dd/yyyy 00:00	U
Disease Imported	Indicates whether the disease was likely acquired outside the jurisdiction	text	Indigenous, Unknown, Out of the country	U
Disease Imported Code	Code that indicates whether the disease was likely acquired outside the jurisdiction (Indigenous, Unknown, Out of country)	text	IND, UNK, OOC	S
ELP From Time	Indicates the start time during which the entry is related to the location	date	mm/dd/yyyy; 00:00	U

## WVEDSS - Data dictionary

Field Name	Description of variables	Value field	Format	User (U)/system (S) defined*
ELP To Time	Indicates the end time during which the entry is related to the location	date	mm/dd/yyyy; 00:00	U
Education Level	The highest level of education the person has achieved	text	high school, college	U
Education Level Code	Code for education level (High school diploma, College )	text	HD	S
Ethnic Group	Indicates the ethnic group of the person	text	Not Hispanic or Latino	U
Ethnic Group Indicator	Indicates if the person is Hispanic or not	4 digits number with hyphen and 5 or 2	Not Hispanic =2186-5; Hispanic=2135-2	S
<b>Event Date</b>	Date the event occurred	date	mm/dd/yyyy; 00:00	S
Event Type	Type of events based on different dates.	text	OnSetDate = 'O'; Diagnosis_date= 'D'; rpt_to_county_time = 'C'; rpt_to_state_time = 'S'; phc_add_time = 'P';	S
<b>First Notification Date</b>	<b><i>Date on which the regional Epi creates a notification <u>with an investigation</u> for approval by State</i></b>	<b>date</b>	<b>mm/dd/yyyy; 00:00</b>	S
<b>First Notification Sent Date</b>	<b><i>Date on which the notification is processed by the State and queued to be submitted to CDC (utilized for indicating when CDC is notified, unless Notification Status is indicated as MSG_FAIL)</i></b>	<b>date</b>	<b>mm/dd/yyyy; 00:00</b>	S
First Notification Status	Status of notification record (Approved or Pending Approval)	text	APPROVED; PEND_APPRO	S
First Notification Submitted By	Code for the submitter of the notification	8 digits number	10248843; 10249001 etc.	S
Group Case Count	Number of records reported in a single Case Report	number	0, 1, 2, 3	S
Investigation ID	An NBS-assigned ID for specific investigation	number	10330346; 10330814 etc.	S

## WVEDSS - Data dictionary

Field Name	Description of variables	Value field	Format	User (U)/system (S) defined*
<b>Investigation Start Date</b>	The date the investigation was initiated.	date	mm/dd/yyyy; 00:00	U
Investigation Status Code	Indicates the investigation status of the case	text	O=open; C= Closed	U
<b>Investigator Assigned Date</b>	The date an investigator was assigned this record	date	mm/dd/yyyy; 00:00	U
Investigator Name	Case investigator's name	text	White Bob, Kline Kimberly	U
Investigator Phone	Case investigator's telephone number	number with hyphen	xxx-xxx-xxxx	U
Jurisdiction	Physical area from which the report was submitted	text	County, WV	U
Jurisdiction Code	Code for physical area from which the report was submitted	zip code	5 digit zip code	U
<b>Last Notification Date</b>	<b>An update made to an investigation</b>	<b>date</b>	<b>mm/dd/yyyy; 00:00</b>	U
<b>Last Notification Sent Date</b>	<b>Last time a notification was processed by the NBS system and queued to be submitted to CDC (utilized for indicating when CDC is notified)</b>	<b>date</b>	<b>mm/dd/yyyy; 00:00</b>	S
Last Notification Submitted By	Code for the submitter of the last notification message	8 digits number	10249030; 10248840 etc.	S
Latitude	The latitude portion of the geocode	decimals( may be +ve, 0 or -ve)		S
Longitude	The longitude portion of the geocode	decimals( may be +ve, 0 or -ve)		S
MMWR Week	MMWR Week for which the case information is counted for	number (1-53)	1, 2, 52 etc.	S default
MMWR Year	MMWR year for which the case information is counted for	number (4 digits year)	2011, 2012, 2013	S default
MPR Id	Master patient record ID	number (9 digits)	10330317; 10330474; 10330620 etc.	S
Marital Status	Marital status of the person	text	single, never married; married; unknown	U

## WVEDSS - Data dictionary

Field Name	Description of variables	Value field	Format	User (U)/system (S) defined*
Marital Status Code	Value representing the domestic partnership status of the person	test	S, M, U	S
<b>Notification Date</b>	<b><i>Date that CDC is made aware of notification for the first time (this date essentially works as a duplicate to the First NotificationSent Date)</i></b>	<b>date</b>	<b>mm/dd/yyyy; 00:00</b>	S
Number of Notification Created	Number of notifications indicated as "Approved" - message approved to be sent to CDC	number	1, 2	S
Number of Notification Sent	Number of notifications indicated as "Completed" - message sent to CDC	number	1,2	S
Occupation Code	Indicates person's occupation	number	scientific and technical services;	U
<b>OnSet Date</b>	Condition onset date. i.e. disease start date	date	mm/dd/yyyy 00:00	U
Outbreak Indicator	Indicates whether this case is considered as an outbreak (Yes, No, Unknown)	text	N, UNK, Y	U
Outbreak Name	Name assigned to an individual outbreak	text		U
Outcome Code	Indicates the disposition of the subject of the report for a condition	text	N, UNK, Y	U
PHC Status Code	A code depicting the state of the participation (e.g., pending, active, complete, cancelled) of public health case	text	A, P, C	S
Participation Type Code	Participation type code	text	SubjOfPHC	S
Patient Address As Of Date	Patient address as of PHC (public health case) add time	date	mm/dd/yyyy 00:00	U
Patient Age At Onset	Indicates patient' age at the time of condition onset.	number	53, 13 etc.	S
Patient Age At Onset Unit Code	Unit of measure for the patient's age at the time of condition onset (Year, Months, Days)	text	Y, M, D	S
Person Id	NBS identified person ID for for the patient.	8-digit number	10330329, 10370104	S
Person Local Id	The person's default local system assigned identifier	text and number	PSN10101243WV01;PSN10101262WV01	S

## WVEDSS - Data dictionary

Field Name	Description of variables	Value field	Format	User (U)/system (S) defined*
Person Name	Person's name	text	LASTNAME, FIRSTNAME	U
Phc Add Time	Date on which the PHC (public health case) record was added	date	mm/dd/yyyy 00:00	S
Physician Name	Physician's name	text	LASTNAME, FIRSTNAME	U
Physician Phone	Physician's phone number	number with hyphen	xxx-xxx-xxxx	U
Primary Language	Language the person is most comfortable with (English, Spanish).	text	English	U
Primary Language Code	Code indicating the language the person is most comfortable with.	text	ENG	S
Program Area Code	Program area code	text	HEP-C, ZD, VPD, IBD, ENT, STD	U
Record Load Time	The date/time of the processing status. Default value: today's date.	date	mm/dd/yyyy 00:00	S
Record Status Code	Indicates the processing status of the record	text	Open, Active	S
<b>Report Date</b>	<b>found in the NBS_ODSE.public_health_Case table as defined below. If the UI Question "County (INV120) is populated then</b>	date	mm/dd/yyyy 00:00	U
<b>Report Form Completion Time</b>	Date first reported by the reporting source.	date	mm/dd/yyyy 00:00	S
Report Source Code	The type of facility or provider associated with the source of information sent to Public Health	text	LA= lab; PH= health dept; HO= hospitals; ER= Emergency room	S
Report Source Name	Name of the reporting source	text	Office of Laboratory Service; Laboratory Corporation of America-ViroMed;CAMC	U
Report Source Type	Type of reporting source	text	Laboratory; Hospital	U
Report To County Time	Date/time case was first reported to the county public health system. i.e. Earliest date reported to county public health system.	date	mm/dd/yyyy 00:00	U

## WVEDSS - Data dictionary

Field Name	Description of variables	Value field	Format	User (U)/system (S) defined*
<b>Report To State Time</b>	Date/time case was first reported to the state public health system. i.e. Earliest date reported to state public health system.	date	mm/dd/yyyy 00:00	U
Reporter Name	Name of the reporter	text	LASTNAME, FIRSTNAME	U
Reporter Phone	phone number of the reporter	number with hyphen	xxx-xxx-xxxx	U
Shared Indicator	Indicates if the record may be shared	text	T=true, the record may be shared; F=false, the record is not sharable	S default
State	Name of the state	text	West Virginia	U
State Case Id	State case identifier	number	94642, 62053 etc.	U
State Code	Code for the state	number	54	S
Street Address 1	Street address	number followed by text	1234 ABCD ST	U
Street Address 2	Street address 2	text	APT -A	U
Zip Code	Zip code	number (5 digit zip code)	25302; 25303 etc.	U

\* U= Person entering/editing can change the field. S= This field is generated by the system. Some of the system defined variable are editable. Example MMWR week
