**Data in this document are presented for diagnosis of HIV and AIDS reported to the West Virginia Department of Health and Human Resources through December 2009. Data are provisional and may vary in time due to new cases that are received and/or lost to other states.**

**AIDS became a reportable disease by law in West Virginia in April 1984. HIV became reportable by name in West Virginia in September 1989.**

**NOTICE TO HEALTH CARE PROVIDERS, LABORATORIES,  
AND OTHERS RESPONSIBLE FOR DISEASE REPORTING:**

*West Virginia Code §16-3C-8, §16-3-1et seq., 64CSR64, and 64CSR7 require that all positive HIV test results and all cases of AIDS as defined by the CDC must be reported to the West Virginia Bureau for Public Health. For information on the CDC AIDS case definition, to obtain case report forms, or to report a case, contact:*
