

Randolph County Clean Indoor Air Regulation **Randolph County Board of Health**

Title:

This Regulation shall be known as the Randolph County Clean Indoor Air Regulation.

AUTHORITY

Public Smoking Regulation adopted by a County Board of Health is in accordance with authority granted by West Virginia State Law, Chapter 16-2-11.

Findings and Purpose:

The United States Surgeon General and numerous other credible authorities and medical researchers have determined that involuntary inhalation of tobacco smoke is

- (a) a cause of numerous diseases in healthy nonsmokers;
- (b) is a major contributor to indoor air pollution: and
- (c) that children, elderly people, individuals with cardiovascular and/or respiratory disease are at special risk.
- (d) that the simple separation of smokers and nonsmokers within the same airspace may reduce, but does not eliminate the exposure of nonsmokers to environmental tobacco smoke.

Accordingly, the purpose of this Regulation is

- (1) to protect the public health and welfare by prohibiting smoking in enclosed public places except in designated smoking areas,
- (2) to regulate smoking in places of employment,
- (3) to recognize that where the need to breathe smoke-free air conflicts with the desire to smoke, the need to breathe tobacco-free air shall have priority
